

welker

German Quality Since 1856.

FIRST IN BUSINESS

World Class
Conditioners
and Heat-
Setting
Machines.
Made in
Germany.

PASSION MADE IN GERMANY.

OUR PASSION IS MACHINERY

WELKER machines are known for their quality, sturdy construction and efficiency in the field. Since the start of the business in 1856, we have been active in the textile sector with heavy duty machines for conditioning and heat-setting.

FAMILY COMPANY

The WELKER company is owned solely by the members of the KOCH family who took over control in early 2001. Since then, our production was modernised and significant product improvements were undertaken to keep the company as technology and quality leader in the field of conditioning and heat-setting as well as in adjacent areas.

MADE IN GERMANY

All WELKER machines are entirely manufactured in GERMANY, welded and engineered under supervision of the German authorities. Customers are invited at any to visit our premises.

INDUSTRIAL "MANUFACTUM"

WELKER machines are customised and manufactured individually. Every project has its own characteristics and demands special care of all involved staff to satisfy our customers. The machines are "hand made" and a product of traditional German quality.

ADVANCED TECHNOLOGIES

WELKER detains patents and technologies in the various fields of activity, namely:

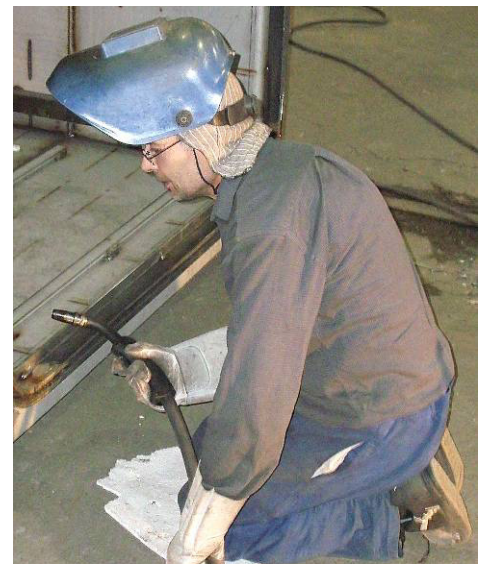

- TURBOCOOLER yarn cooling,
- PREVAP/ COOLVAP moisturisers
- DUPLEX double side machines
- CASCADE energy saving
- WATERLESS vacuum pumps
- BOOSTER vacuum pumps

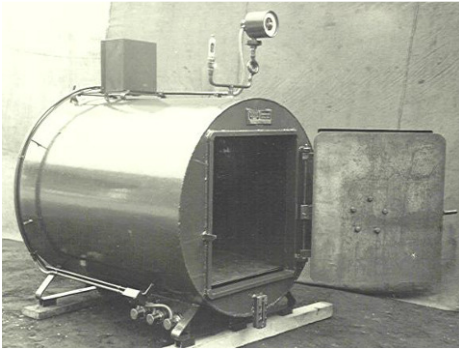

OUR TRADITION IS QUALITY.

MANUFACTURING IS LOCAL

The production of vacuum vessels of the sizes we make has to be local. With our privileged location in Germany, we are close to all major European industrial areas. Supplies are fast and excellent workforce is available to enhance our tradition of quality and reliability.

OUR PROFILE

1856: FIRST IN BUSINESS

WELKER was founded in 1856 by Philip Welker, and is therefore, one of the most traditional suppliers for the Textile Industry. In 1941 the first generation of vacuum steaming equipment was developed and successfully introduced to the market. WELKER systems are installed world wide and are applied in all areas of heat- setting, conditioning and drying.

WELKER IN THE TEXTILE WORLD

WELKER is divided in two divisions: PLASTICS and TEXTILES.

With more than 1900 machines installed over the world and agents in all textile markets we provide project sales, installation and services to all textile customers for conditioning, heat- setting, tow annealing, automotive interiors and technical textiles.

CONDIBOX

CONDIBOX and CONDIBOX BLUE LINE are the most successful conditioners world wide.

CONDIBOX GFY

Leading product for conditioning and drying of GFY.

VAPOMAT

Compact all- in HT system for conditioning and heat- setting with temperatures up to 140°, where the steam generation is integrated inside the vessel.
