

Customer Report

RAYMOND UCO, India

RAYMOND UCO DENIM is one of the largest international producers of Denim fabrics. In their facilities located in Maharashtra, India, we installed recently 2 automatic WELKER Yarn Conditioning Systems, namely:

1 VAPOFIX 120 manufactured under WELKER license by AB REINIGER PVT LTD, Coimbatore for spinning tubes, and

1 CONDIBOX DUPLEX manufactured in Germany by WELKER, for yarn pallets

The CONDIBOX DUPLEX is a machine type that allows direct loading of pallets or pin trucks from the machine side and its construction enhances large widths. The equipment includes also new CASCADE-ECOSYSTEM to save heating energy cost.

High efficiency WELKER VAPOFIX 120 with automatic platform as best possible solution for the conditioning and fixation of the yarn tubes with high twist.

Since 2013, AB REINIGER produces these WELKER machines in INDIA and provides sales and service for all WELKER products.
